

## Safety and regulatory information: TG-LR92

**Model: TG-LR92**

### EN - English. Safety and regulatory information:

This device needs to be upgraded to the latest stable version to ensure compliance with local authority regulations!

It is the end users responsibility to follow local country regulations. All MikroTik devices must be installed according to instructions.

*This is a network device. You can find the product model name on the case label (ID).*

*Please visit the user manual page on <https://mt.lv/um> for the full up-to-date user manual.*

*Technical specifications, brochures, and more info about products are at <https://mikrotik.com/products>.*

*The latest upgrades on MikroTik software can be found: <https://mikrotik.com/download>.*

*Configuration manual for software in your language with additional information can be found at <https://mt.lv/help>.*

*If you need help with configuration, please seek a consultant <https://mikrotik.com/consultants>.*

*For any compliance related questions, contact [certification@mikrotik.com](mailto:certification@mikrotik.com).*

*Note: For some models, check the user and wireless passwords on the sticker.*

### Safety Information:

- Before you work on any MikroTik equipment, be aware of the hazards involved with electrical circuitry, and be familiar with standard practices for preventing accidents. The installer should be familiar with network structures, terms, and concepts.
- Use only the power supply and accessories approved by the manufacturer, and which can be found in the original packaging of this product.
- This equipment is to be installed by trained and qualified personnel, as per these installation instructions. The installer is responsible for making sure, that the Installation of the equipment is compliant with local and national electrical codes.
- Do not attempt to disassemble, repair, or modify the device. If service is needed, please contact MikroTik support.
- This product can be used both indoors and outdoors. Please read the mounting instructions carefully before beginning installation. Failure to use the correct hardware and configuration or to follow correct procedures could result in hazardous situation to people and damage to the system.
- We cannot guarantee that no accidents or damage will occur due to the improper use of the device. Please use this product with care and operate at your own risk!
- The socket-outlet shall be installed near the equipment and shall be easily accessible.
- In the case of device failure, please disconnect it from power. The fastest way to do so is by unplugging the power adapter from the power outlet.
- To avoid contamination of the environment, separate the device from household waste and dispose of it in a safe manner, for example, in designated areas. Become familiar with procedures for properly transporting the equipment to designated collection points in your area.

# Federal Communication Commission Interference Statement

Model	FCC ID
TG-LR92	TV7-TGLR92

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This unit was tested with shielded cables on the peripheral devices. Shielded cables must be used with the unit to ensure compliance.

Exposure to Radio Frequency Radiation: This MikroTik equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This MikroTik device should be installed and operated no closer than 20 centimeters from your body, occupational user, or the general public.

## Innovation, Science and Economic Development Canada

Model	IC ID
TG-LR92	7442A-TGLR92

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science, and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: 1) L'appareil ne doit pas produire de brouillage; 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

CAN ICES (B) / NMB (B)

Exposure to Radio Frequency Radiation: This MikroTik equipment complies with the IC radiation exposure limits set forth for an uncontrolled environment. This MikroTik device should be installed and operated no closer than 20 centimeters from your body, occupational user, or the general public.

Exposition aux rayonnements radiofréquences : Cet équipement MikroTik est conforme aux limites d'exposition aux rayonnements de la ISED définies pour un environnement non contrôlé. Cet appareil MikroTik ne doit pas être installé et utilisé à moins de 20 cm de votre corps, de celui de l'utilisateur professionnel ou du grand public.
